ANALYST NOTE — ATTACHED TO RECORD

The following note was filed by the employee to her own personnel record on 2026-03-10 and is retained per document-hold policy DH-11.

“I am documenting a pattern of irregular after-hours access to the Northern Lights subject dataset by my reporting manager. Export volumes do not match any assigned project. I have retained photographs and intend to raise this with Compliance. I am recording this here so there is a dated record independent of him.”
